STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within 6 months of date of purchase, or by time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It is understood that the same guarantee given to the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such certificate is required by the seller.
- F. All animals cataloged have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bang's Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot.

Our Invitation To...

THE BI-CENTENNIAL IOWA ROYAL

The IOWA ROYAL SALE, for a great number of years a nationally recognized event, has been sponsored by the Iowa Shorthorn Breeders Ass'n.

The reputation of this sale and its consignors to offer better cattle each year takes an all out effort; in investment, in new bloodlines, herd management and selected mating; to present an ever better consignment for your approval.

The Iowa Shorthorn Breeders Ass'n, organized to promote the Shorthorn breed of cattle with membership in all branches — Polled, Horned and Commercial — takes great pride in endorsing this large offering of qualify selected Shorthorn breeding cattle.

The consignors to this sale have kept abreast of the changing times by using nearly every tool available to them — breeding in new genetics through A.I. and natural service, performance records, show ring evaluation, carcass data, use of gain tested breeding, and the progress they have made.

A selection of 67 Bulls, 18 Bred Females, and 28 Junior Heifers for this sale measure up.

In your study of this catalog you will find an offering of new bloodlines, new consignors and established reputation breeding cattle from long time breeding consignors. Iowa breeders have traditionally selected and reserved the tops from their herds to be sold at the show window sale, The IOWA ROYAL.

Over the years seedstock producers and commercial breeders have returned to the Iowa Royal for new herd bulls and foundation females. To get this buyer acceptance it must be considered proof of performance and satisfaction. The quality cattle offered in this sale can meet the needs of the most discriminate breeder, purebred or commercial.

Breeders and junior club members have looked to this sale for foundation females and project heifers. Some new consignors are returning this year to sell cattle from their herds that were founded on purchases at previous Iowa Royal Sales. Need more be said.

Make your plans early to attend. Enjoy the show and the next day fill your needs at the sale.

THIS SALE DEDICATED TO

BEN STUDER

Breed appreciation to its longtime breeders is always felt but often unexpressed. So, we dedicate this sale to one of Iowa's finest gentlemen and long time improvers, Ben Studer, Wesley.

Ben G. Studer founded his herd in 1916 and was among the first to breed both Shorthorns and Polled Shorthorns. His show record is long and enviable. His quiet perseverance enabled him to withstand two depressions and build a large prosperous Iowa farming operation in which both branches of the breeds play a vital role.

In 1969 he was honored as a "BUILDER of the BREED" by American Shorthorn Association.

Mr. Studer has been, as far as we know, a continuous member of Iowa Shorthorn Breeders Ass'n. and a consignor to the Iowa Royal Sale from its beginning.

This dedication is most fitting this year with a grandson, Michael T. Studer, Wesley, serving as President of the Iowa Shorthorn and Polled Shorthorn Breeders Association.

Ben Studer! Thank you from all of us! We appreciate your long time allegiance to our breed, the quiet dignity you have lent our business and the unpayable contributions you have made to breed progress.

NEWLOOK x — Our noted bull bred by Kinnaber Stock Farm, Souris, Manitoba, Canada, is consigned because we have three sets of calves by him. He is in his prime. Newlook stood second in a class of forty-nine Spring Yearlings at the famous National Show in 1972 after winning at the Oklahoma and the Tulsa State Fairs. In 1973 he was an All-American Nominee in the Senior Get-of-Sire. We regret now that we have not shown his calves more widely. Last summer we showed only once at the All Iowa Fair, Cedar Rapids, where his get won the Two-Bull Class. This bull weighed 1295 at sixteen months. We are consigning a bull and heifer by him to this sale.

NAVARRE AUBURN — Had an index of 101 as a yearling. He is sired by J H Navarre 33rd, top selling bull in Joe Huckfeldt sale in 1972. His dam, Red Dorothy 5th, was one of the largest cows we had on the farm, she was a 1600 lb. cow in her younger years. This line of breeding has been in the herd since the early 1940s. He should make some one a real good breeding bull.

K A TROJAN x — One of the most discussed bulls at the National "Patterns for Progress" conference at Des Moines last summer. Grown out on grass and roughage. Tremendous feet and legs, very correct in his lines. His dam is an exceptionally sound, thick, muscular cow. Trojan is sired by Meadowbrook Chieftain 9th x, a 100% dehorning, dual purpose bull — one of the few dual purpose bulls with performance records. His 205 day wt. was 726 lbs. — 1140 lbs. at 365 days — 2400 at maturity. Trojan's weaning ratio 107, yrl. wt. per day/age ratio 109. Semen check very good.

J S F ALBERTA STANDARD 1 G x — On the advice of our new state secretary we are entering one of our best heifers. This is our first calf by Kenmar Standard 32E and is a super heifer. Her sire in use in our herd raised our weaning weights 59 pounds per head on ROP test. Here is a heifer with size, balance, muscling, and a pedigree to match. Sells with breeding privilege to any bull we have. Calfhood vaccinated. This is definitely a show prospect and one we should be keeping.
